

Five questions before choosing vertigo care

Bring these questions to your next conversation with a healthcare provider. Keep your answers and personal notes privately.

01 What experience do you have evaluating and treating dizziness, vertigo and balance problems?

Notes:

02 What will the evaluation include, and how will the findings guide my care?

Notes:

03 How will you decide whether I need another clinician or additional testing?

Notes:

04 Where will care take place, and how will we address the activities that matter to me?

Notes:

05 What will visits cost, and what should I understand before I schedule?

Notes:

General education. For sudden stroke warning signs, call 911.
